

# WOODHOUSE

## ORIENTEERING MAP

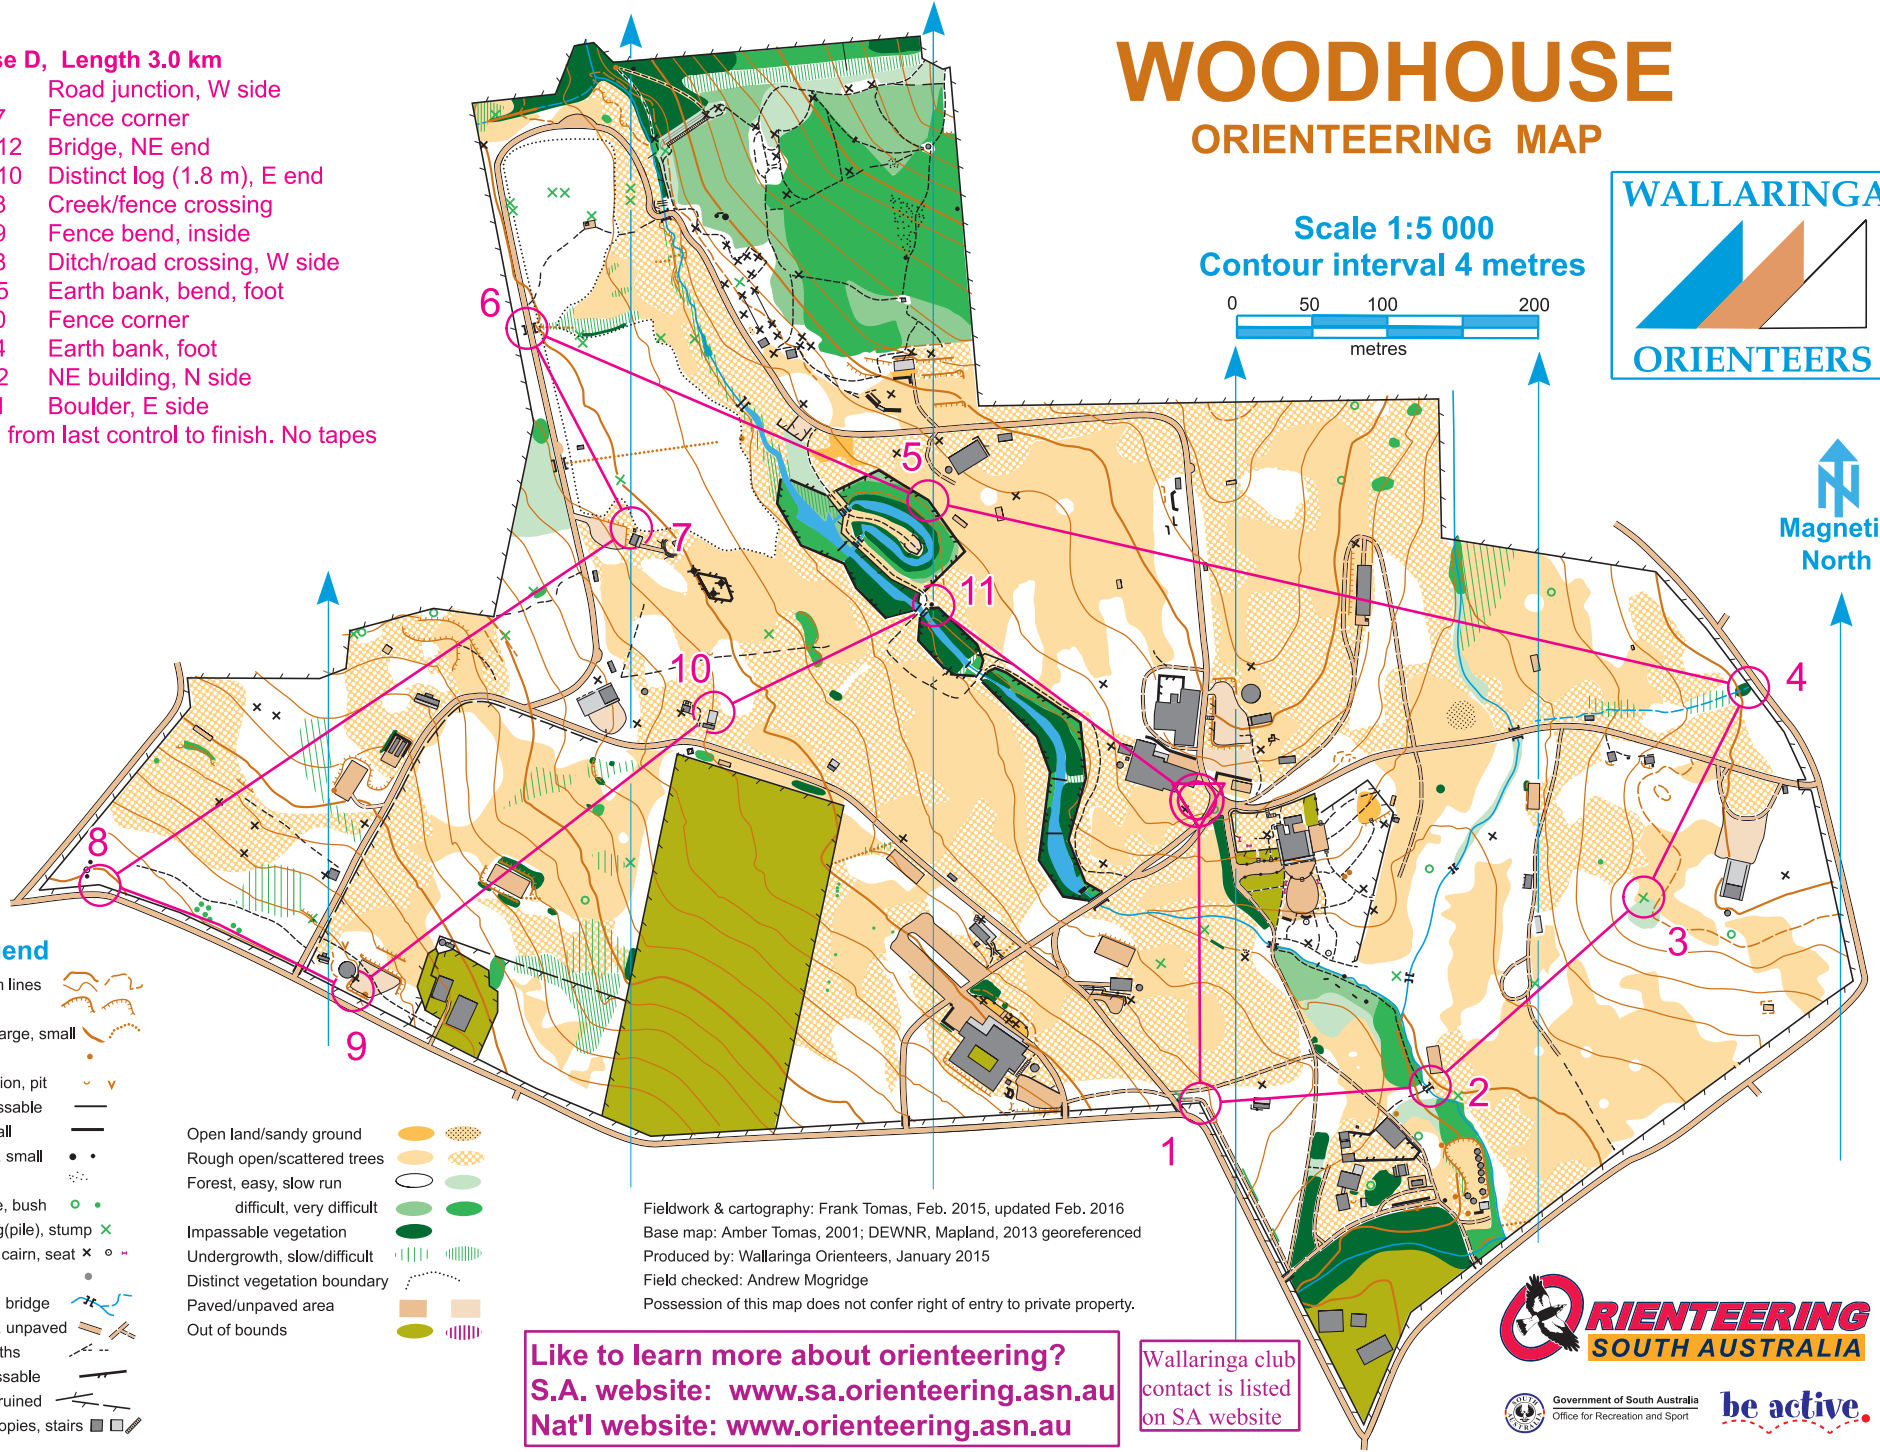

Scale 1:5 000  
Contour interval 4 metres

### Course D, Length 3.0 km

- Start Road junction, W side
1. 27 Fence corner
  2. B12 Bridge, NE end
  3. A10 Distinct log (1.8 m), E end
  4. 28 Creek/fence crossing
  5. 29 Fence bend, inside
  6. 18 Ditch/road crossing, W side
  7. B5 Earth bank, bend, foot
  8. 30 Fence corner
  9. 24 Earth bank, foot
  10. A2 NE building, N side
  11. 31 Boulder, E side
- 220 m from last control to finish. No tapes

### Legend

- |                              |  |                              |  |
|------------------------------|--|------------------------------|--|
| Contours, form lines         |  | Open land/sandy ground       |  |
| Embankment                   |  | Rough open/scattered trees   |  |
| Erosion gully large, small   |  | Forest, easy, slow run       |  |
| High point                   |  | difficult, very difficult    |  |
| Small depression, pit        |  | Impassable vegetation        |  |
| Rock face, passable          |  | Undergrowth, slow/difficult  |  |
| Impassable wall              |  | Distinct vegetation boundary |  |
| Boulder, large, small        |  | Paved/unpaved area           |  |
| Stony ground                 |  | Out of bounds                |  |
| Distinctive tree, bush       |  |                              |  |
| Root stock, log(pile), stump |  |                              |  |
| Made feature, cairn, seat    |  |                              |  |
| Tank                         |  |                              |  |
| Watercourses, bridge         |  |                              |  |
| Roads, paved, unpaved        |  |                              |  |
| Tracks, footpaths            |  |                              |  |
| Fences, impassable           |  |                              |  |
| passable, ruined             |  |                              |  |
| Buildings, canopies, stairs  |  |                              |  |
